

Tarbora/Framework/Graphics
Engine/src/ImGuiBuild.cpp

```
graph TD; A[Tarbora/Framework/Graphics Engine/src/ImGuiBuild.cpp] --> B[../imgui/examples/imgui_impl_opengl3.cpp]; A --> C[../imgui/examples/imgui_impl_glfw.cpp];
```

The diagram illustrates the relationship between the `ImGuiBuild.cpp` file and its implementation files. At the top, a box contains the text `Tarbora/Framework/Graphics Engine/src/ImGuiBuild.cpp`. Two blue arrows point from this box to two separate boxes below. The left box contains `../imgui/examples/imgui_impl_opengl3.cpp` and the right box contains `../imgui/examples/imgui_impl_glfw.cpp`.

../imgui/examples/imgui
_impl_opengl3.cpp

../imgui/examples/imgui
_impl_glfw.cpp
